

HAEMOFINE® pen needles

HAEMOFINE® universal pen needles are designed to meet the needs of your diabetes therapy. Premium needle quality ensures smooth, comfortable insulin injection. 4 different needle variations help match your personal preferences and insulin dose. Consult a health care professional when choosing the right HAEMOFINE® pen needle version.

Manage your diabetes safely

- Follow your doctor's instruction when choosing the most appropriate needle for your needs.
- Pen needles are single-use – avoid health risks and use a new pen needle for each injection.
- Follow instruction for use of Hemofine® pen needle and your injection pen.
- Discard used pen needles in a sharps container.
